Cotes du Roussillon Villages,  
France

## Les Terrasses de Regis Boucabeille Rouge 2020

SKU 464883 | 12x750 ml | Spec | \$15.99 Wholesale

The name of this wine evokes the traditional culture of the mountain vineyard on terraces. The wine is a direct expression of the terrain. Bottled soon after the harvest, it is fruity, spicy and slightly tannic.

### Winemakers Notes

For the modest price this is a very skilfully made wine. As typical of Roussillon reds it a blend of a selection of the permitted grape varieties here. A blend of 50% Grenach and 50% Syrah make up the composition. There is lots of juicy fruit here with plums and mulberries at first backed up by pepper and spicy minerally notes. It's got a good weight and silky tannins which give a nice balance and it's packed with lovely freshness of flavour and finishes with a touch of savouriness. A terrific value that's organic.

### Winery Information

The Stony Shale Slopes of Domaine Boucabeille - Organic

With 69 acres of terraced organic grapevines planted in the stony shale slopes of the Forca Real, Domaine Boucabeille is surely one of the region's best kept secrets. On land long abandoned as too work intensive, the Boucabeille family, father and son, took up the challenge of replanting the terraces with syrah, mourvèdre, grenache noir and blanc, carignan and roussanne, to produce a high quality range of wines.

Everything is done by hand, the planting, the year round maintenance, the harvesting. The use of machinery is impossible due to the steep slopes and the stony, reluctant land. Patience and passion over 30 years have established the vines, given them the vital elements they need to flourish in a previously unwelcoming terrain.

The energy positive wine cellar with solar roof and rainwater recovery system is a further testimonial to the domain's total esteem and respect for its environment.
